

## GSA Exhibitions Pte Ltd Changes Hands

The Organisers are pleased to announce that **GSA Exhibitions Pte Ltd**, originally owned by a UK-Singapore joint venture company, was acquired by Roger Marriott who will be Chairman of the new Board with his son Andrew as Managing Director.

The organisers successfully launched Global Security Asia 2005 in Singapore as a biennial Event with the full support of the Ministry of Home Affairs to meet the needs of the international Homeland Security Industry. The second edition in the Series was held in March 2007 and was another unqualified success. At the conclusion of the 2007 event the organisers' received many positive comments from Exhibitors, Delegates and Visitors on the efficient organisation which augers well for the future.

Roger Marriott was the architect and founder of the GSA Series and is delighted not only with the acquisition but more importantly that the Ministry of Home Affairs have given their full on-going support to the Show.

Roger Marriott would like to assure all our exhibitors and supporters that under the new 'Team' they will continue to maintain the very high professional standards that have been the hallmark of the Series to date and look forward to the continuing support and involvement of all our friends and supporters world-wide.
